WEDNESDAY, April 15-P. M. rushed up to 1794, and closed at 178 at 3 p. m. The an- no dividend. nouncement that the Treasury is ready to pay the May | The Toledo and Wabash Railway Company interest of the 5-20s meets general approval, but no information to this effect has yet reached Mr. Cisco. The pretense that he will thwart the design of the Department, through want of clerical force, is unfounded. On a former occasion he kept his office open until 6 p. m. to receive Gold, and would do no less now, when the reduction of the Government hoard would be so advantageous. Money is active at 7 \$\Psi\$ cent, and some of the city banks are unable to pay checks drawn for 10-40s. It is a healthy state of things, and the sooner they are forced to contract by the demands of their depositors. who desire to invest in Government stocks, the better. The speculating mania is encouraged by nothing so of Merchandise, the exports of Produce and Merchanmuch as the action of the banks in affording facilities to stock gamblers and the sooner they refuse to certify checks, unless funds are in hand, the better. The closer the paying tellers of all banks are watched the safer the banks in the storm ahead. Now is the time for pradence, excessive caution, and a general rally to the aid of the Government, by buying its bonds and forcing a Specie) from New Y-ork to foreign ports for the week reduction of currency and speculation. It is better to sell bonds at 90 for a 6 P cent Stock than to pay \$2 in paper money for what one gold dollar would buy. The sales of 10-40s are increasing, and there is little doubt that when the arreagements for their sales are well at work the Government will get its expenses from this source. Prompt ment will get its expenses from this source. Prompt action must be had upon the Tax bill, and one sure to give \$300,000,000 will alone satisfy prudent people and give \$300,000,000 will alone satisfy prudent people and when the Receiver was appointed that the affairs of the Hank would soon be closed, and that a liberal dividend would be paid.

Come what may this will remain a great nation, abounding in wealth pledged to pay the cost of suppressing the Rebellion, and paid it will be no matter what party is in office. There is no such word as fail, and the sooner people get this firmly fixed in their minds, and square their financial conduct by it, the better for them. Every dollar raised by taxation for the suppression of the Rebellion, and every dollar leaned to the Government, lightens the burden to be borne when the war ends.
